## Things in Philadelphia.

Correspondence of The Tribune.

PHILADELPHIA, Monday, June 9.

The day being very fine, portion of our marine have turned out really strong to-day, and look remarkably well. An exceedingly strong and splendid looking German rifle company arrived in our city from New-York to-day, on a visit.

Cotton is held rather more firmly, and the sales are on a very restricted scale. New cottons of fair quality, however, are still offered at \$1.00 per lb., and the shipping brands are held at \$1.00 and 10c. per lb., but there is little or no demand, and no market can be had for them.

Certificates and Cashier's of the Bank will be delivered by their payment is made.

We take pleasure in giving publicity to this message of the Bank. At this time, or the commencement of the business we made our readers acquainted with its plan, and we are confident that our Eastern capitalists will, in many cases, avail themselves of the opportunity to invest in our new stock. The peculiar features of the charter, to which attention should be given, are as follows:

1st. *Its Permanency.*—The charter is for thirty years, without any reservation by the Legislature to contrain or restrain it.

2d. *Its Free Services to Shippers.*—The Bank furnishes a wide field for bank circulation in a new and rapidly increasing region. The State is one of the most productive of the West, bound in its bonds of finance, pleasure, and sound, and not be swayed with that excess of speculation which pervades other sections of the country.

3d. *Its Capital.*—The capital of the state have been probably well managed by able and upright men, and their dividends have been highly satisfactory. The Bank of Kentucky declared a regular dividend of 4 per cent. in January, 1851, besides extra dividends amounting to 5 per cent. during the past year, out of the Schuyler Bank assets.

The dividends of the Northern Bank of Kentucky
